The real work of transporting families to and from apartments—a task that taxes the facilities of the transfer companies every year—has been postponed this year for two days and the bulk of the moving will be done from now on curing the remainder of the week. The first of October fell on Sunday and yesterday was a Jewish holiday, that brought moving practically to a standstull.

Families of Jewish faith refused absolutely to get out of their apartments being piled high on the sidewalk for several hours. Generally speaking, however, there has been less confusion and inconvenience than in recent years, although moving has been on a larger scale.

A Terminal Welcome to The Bankers' Convention

ISITING BANKERS to the Convention will find a Terminal Shop, not alone in the Commodore, which is the center of the Uptown financial district, but also in the Equitable Building, Downtown, where the Terminal Shop serves more financial men than any other barbering establishment in the world. They will also find Terminal Shops conveniently situated in the Waldorf and Pennsylvania Hotels, and at other easily accessible points, including the famous Knickerbocker Terminal Shop, right where the Hotel Knickerbocker used to be. And whichever shop they patronize, they will find a type of service unknown in any other city in the world, and unknown in New York outside the Terminal System.

Something to think about

-while your mind is still keen and alert

WE would like to clear up a rather common misunderstanding in regard to a Trust Company's work as it would affect the writing of your Will and the administration of your estate after you are gone.

Drawing Wills is professional work a Lawyer's.

The administration of estates is business work—a Trust Company's.

The State protects the public by prohibiting the practice of law by corporations or individuals who are not lawyers.

The State recognizes that the administration of estates is business work by granting charters to Trust Companies.

Since the administration of an estate is largely a business matter, should you not appoint, as your Executor, a business organization?

Of course, if you have a friend who is at once an authority on investments, a tax expert, a capable appraiser, a real estate man, an experienced bookkeeper -and who would never die-you might do as well to appoint him.

But no such man exists.

We therefore suggest that you follow the example of a fast growing number of New York men and women, and ask your lawyer to write this clause in your

"I appoint the Columbia Trust Company of New York as my Executor."

Armstrong's Linoleum

for Every Floor in the House

Beautiful Floors make more beautiful rooms

F you are building or remodeling your home, give thought to the decorative value of lino-

Write for our booklet, "Decorative Linoleum Floors." It contains twenty-four colorplates showing patterns of Armstrong's Linoleum in inlaid parquetry designs, carpet inlaids, Jaspés (two-tone), and marble tile inlaids. You can take this book to a store and show the merchant exactly what you want to see.

Modern linoleum makes a real floor. When the best quality of linoleum is properly laid, it makes a permanent floor with these advantages:

Linoleum floors are the easiest of all floors to keep clean. They

are quiet to the tread, warm to the touch, and can be kept looking new by occasional waxing and polishing. Grease and dirt do not rub into linoleum. With your rugs here and there, you have a floor that never needsrefinishing and that is sure to be admired.

Any good furniture or department store will gladly give you estimates on the cost of Armstrong's Linoleum put down in your home.

Armstrong's Linoleum Rugs

For people who live in apartments or who have houses on short leases and consequently do not wish to install permanent linoleum floors, Armstrong's Linoleum is also made in the form of bordered rugs. Thirty attractive patterns in four sizes from 6 x 9 feet to 9 x 12 feet.

How to Lay Linoleum on Wood Floors

IN summer the moisture in the air causes wood floors to expand. In winter they dry out and contract whe the heat is turned on, with a tendency to open up the cracks between the boards. Your linoleum floor, therefore, should be cemented (not tacked) over a lining of builder's deadening felt which has been previously glued to the bare floor boards. The felt takes up expansion and contraction and gives you a permanent, waterproof, good-looking floor. The added service and wear this method gives are well worth the extra cost.
